

MIKE DOOLEY

Leading Authority on Personal Growth

Mike tells us that we live in a universe that adores us, with inviolate principles that anyone can harness, and in which dream manifestation is inevitable when we understand the true nature of our reality.

Mike joined Price Waterhouse after graduating from the University of Florida as a certified public accountant. He worked in their Tampa, Riyadh, Cairo, New York and Boston offices, specializing in International Taxation. In 1989 he co-founded and served as President of Totally Unique Thoughts (TUT) to retail and wholesale its own line of clothing and gifts.

From the ground up, TUT grew into a regional chain of stores, was carried by every major U.S department store, and reached consumers around the globe through distribution centers in Japan, Saudi Arabia and Switzerland. To date, over 1.000.000 "Totally Unique T-

shirts" have been sold. In 1999 he transformed TUT into a web-based inspirational and philosophical adventurer's club, which now has over 160.000 members from over 169 countries.

He is also the author of "Notes from the Universe" book series, "Choose Them Wisely", "Infinite Possibilities" and "Manifesting Change", among others, and creator of the audio programs "Infinite Possibilities: The Art of Living Your Dreams" and "Leveraging the Universe and Engaging the Magic."

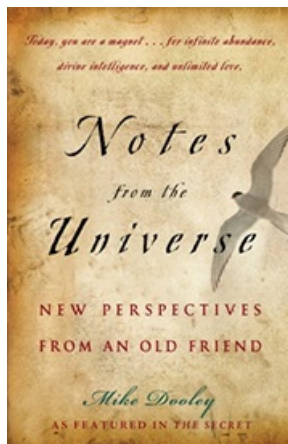

Mike successfully navigated both the corporate and entrepreneurial arenas, gleaning priceless lessons from each about life, dreams, and happiness. Drawing from his own life's lessons, he offers insights to what he calls the Truths of Being, sharing how he discovered and applied such truths for himself and how others can do the same in order to live the life of their dreams.
